that you can use almost anywhere
on your needlepoint projects

Hi there, my friend!

Did you know that there are literally hundreds of options when it comes to choosing decorative stitches for your needlepoint canvases?

And **finding a stitch that will fit into a small space** is one of the **most challenging** situations that you can find yourself in as a stitcher. That's why I created this handy guide just for you!

Whether you're looking for a small stitch for a wee canvas or you need something to fit into a small space on a larger canvas, these 10 stitches are among my "go-to" stitches for small spaces.

And if you post a picture (on Facebook or Instagram) of a project showing how you used one of these stitches, be sure to tag me (@serendipityneedleworks). I'd love to see your creativity in action. 😊

Happy stitching...

XOXO!

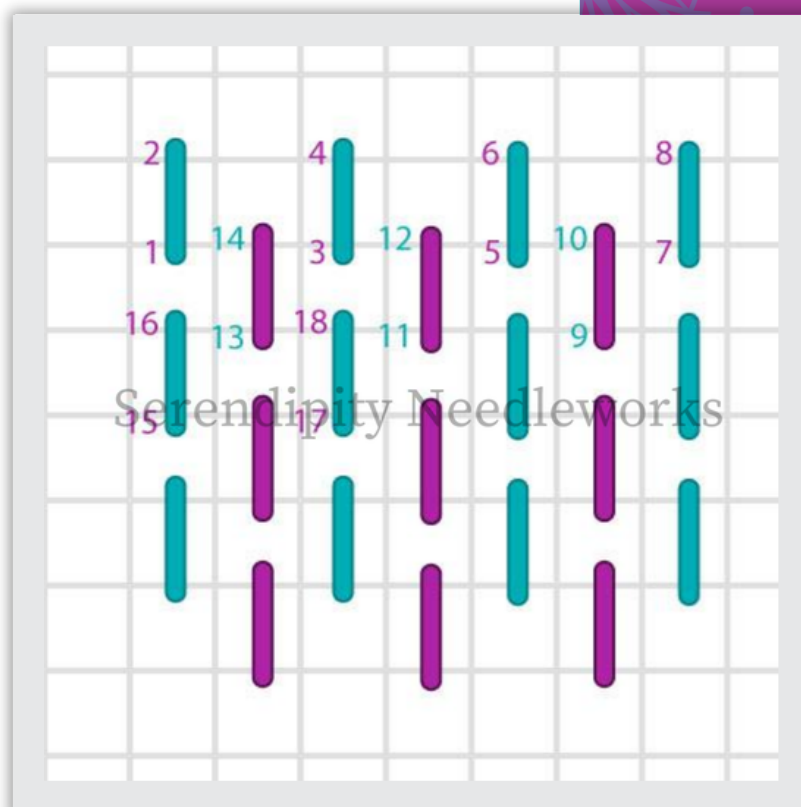

Ellen
